## About

The **Drive Reach OTR Fleet** is weBoost’s most powerful, in-vehicle fleet truck cell phone signal booster yet. Designed to enhance signal coverage for all fleet vehicles (classes 1-8) with a 3-way antenna mount and mast extensions that go up to 40 inches, the OTR outside antenna is all-terrain, all-weather tough and meets current U.S. Military and NEMA IP66 standards.

The sleek, metallic red exterior of the Drive Reach isn’t just for show. The unique fin design increases surface area — ensuring peak performance. It reaches up to 74% farther than our next most powerful vehicle booster to efficiently amplify cell signal. With its enhanced cellular coverage, enjoy fewer dropped calls, better voice quality, faster data speeds, and extended battery life.

Drive Reach simultaneously boosts cell signal for multiple users and devices. Professional installation is required for fleet vehicles to get on the road to better signal.

Drive Reach also has a 2-year manufacturer’s warranty and a 30-day money-back guarantee.
